Room 111

SEPA-National Implantoplasty Network Symposium

8.45-9.00 Introduction
9.00-11.00 Session I. Prevention of Peri-implantitis.
11.00-11.30 Break and posters
11.30-13.30 Session II. Treatment of peri-implantitis.

Room 113

Regeneration World Cup

15.00-16.00 Keynote Session. Clinical cases.
16.00-19.00 Presentation of Finalist Clinical Cases

Thursday,
27 November

Sepa25

Sepa

9.00-10.30 Game of Thrones Scaffolds or membranes? Enhancing the technique.

10.30-11.30 Break. Expoperio.

11.30-13.00 Mucogingival How do we currently manage periimplant recessions?

13.00-14.00 Corporate Forum: Peri-Implant Health What do we know and where are we headed in periimplantitis prevention? Findings from the SEPA-Ticare Delphi Study.

14.00-15.00 Break. Expoperio.

15.00-16.30 Regeneration Complications in bone regeneration: Learning from our mistakes.

16.30-17.30 Break. Expoperio.

17.30-19.00 Regeneration The power of periodontal regeneration.

19.00 Spanish Society of Periodontology and Osseointegration General Assembly.

Sepa

11.30-13.00 Periodontal Health Emerging approaches in periodontal diagnosis. The future according to the 20th European Workshop on Periodontology.

13.00-14.00 Corporate Forum: Prevention and Hygiene What is an antiseptic and how does it work? Are all antiseptics the same? Is every method of application equally effective?

14.00-15.00 Break. Expoperio.

15.00-16.30 Periodontal Health Science in the service of oral health.

16.30-17.30 Break. Expoperio.

17.30-18.00 Corporate Forum: Implants Updated decision-making in immediate loading in the anterior region.

18.00-19.30 Oral Reconstruction Foundation Immediacy in implantology: The latest advances.

Hygiene and prevention

15.00-16.40 Principles Symposium Live connection between the SEPA Congress and the British Society of Periodontology (BSP) Annual Meeting.

16.40-17.30 Break. Expoperio.

17.30-19.00 Hygiene and prevention Committed to the prevention of oral cancer.

19.00-19.30 Corporate Forum: Prevention and Hygiene How to keep gums healthy and prevent implant complications: Antibacterial agents in oral hygiene.

Management

15.00-17.00 Management Innovation and sustainability in the dental practice.

17.00-17.30 Break. Expoperio.

17.30-18.30 Management Innovation and sustainability in the dental practice.

Sepa Pharma

09.30-10.15 Oral health rituals: Three essential steps.

10.15-11.00 The future of dental care in your pharmacy.

11.00-11.30 Break. Expoperio.

11.30-12.15 Oral antiseptics: Standing out through quality recommendations.

12.15-13.00 Prosthetics and oral health: The pharmacist as an ally in patient hygiene, prevention, and well-being.

13.00-13.45 The oral microbiome: The invisible ecosystem of your mouth.

13.45-15.00 Break. Expoperio.

15.00-15.45 Oral health care from the pharmacy.

15.45-16.30 Pharmacy and integrative dentistry: What is oral dysbiosis?

16.30-17.00 Break. Expoperio.

17.00-17.45 Oral and general health: How oral health affects the body.

17.45-18.15 The importance of pharmaceutical counseling in promoting oral health: How to address the most frequent questions in the pharmacy.

Friday,
28 November

Sepa

9.00-10.30 Peri-implant Health Management of the compromised socket without a buccal wall in the esthetic zone.

10.30-11.00 Corporate Forum: Regeneration Reconstruction of periodontal and peri-implant tissues in highly compromised situations.

11.00-11.30 Break. Expoperio.

11.30-13.00 Peri-implant Health Pros and cons in the treatment of peri-implantitis.

13.00-14.00 Corporate Forum: Implants Fifty & Fifty: Immediate implants in compromised sockets.

14.00-15.00 Break. Expoperio.

15.00-16.30 Implants New digital frontiers in implant therapy.

16.30-17.00 Break. Expoperio.

17.00-17.30 Corporate Forum: Implants Implants in the esthetic zone in 2025.

17.30-19.00 Periodontal Health The success of a patient-centered practice. Presentation of the SEPA Promotion of Periodontology Award.

Sepa

9.00-10.30 Regeneration Therapeutic options for severe bone atrophy in edentulous jaws.

10.30-11.00 Corporate Forum In search of esthetic management in complex implant and prosthetic rehabilitation cases.

11.00-11.30 Break. Expoperio.

11.30-13.00 Interdisciplinary Current trends in the management of the gummy smile.

13.00-13.45 Corporate Forum: Implants Redefining the artificial intelligence-assisted digital workflow in immediate implantology: New guided surgery protocols with iExcel.

13.45-15.00 Break. Expoperio.

15.00-16.30 ITI - Sepa Key Conclusions from the VII ITI Consensus (2023)

16.30-17.00 Break. Expoperio.

17.00-17.30 Corporate Forum: Peri-implant Health Prosthetic and surgical strategies for preventing periimplant diseases: A multidisciplinary approach.

17.30-19.00 Implants What to do with hopeless teeth in the esthetic zone of young patients.

Hygiene and prevention

9.00-10.30 Hygiene and prevention The use of antiseptics in the prevention and treatment of periodontal diseases.

10.30-11.30 Break. Expoperio.

11.30-13.00 Hygiene and prevention Clinical tips for the management of periodontitis.

13.00-15.00 Break. Expoperio.

15.00-16.30 Hygiene and prevention The role of artificial intelligence in the prevention and management of periodontal diseases.

16.30-17.00 Break. Expoperio.

17.00-17.30 Corporate Forum: Periodontal Health Microbiology in toothbrushes. A new paradigm.

17.30-19.00 Hygiene and prevention Promoting oral health from preconception through adolescence.

Management

9.00-10.30 Management Why measure and evaluate the management of a dental practice.

10.30-11.30 Break. Expoperio.

11.30-13.00 Management How to measure key performance indicators in dental practice management.

13.00-13.30 Management More Headaches? Taxation starting January 1, 2026.

13.30-15.00 Break. Expoperio.

15.00-16.30 Management Leadership and diversification skills in managing a dental clinic in a digital environment.

16.30-17.00 Break. Expoperio.

17.00-18.20 Management The impact of artificial intelligence on improving productivity in dental clinics.

18.20-19.00 Management Round Table. The future of the market and the industry.

Dentaid Research Center Room: Imagining the future of oral health

9.30-11.00 What's new and what's best in tissue regeneration?

11.00-11.30 Break. Expoperio.

11.30-13.00 Prevention of peri-implant diseases.

13.30-14.30 Lunch & Learn. Peri-implantitis under control: Surgery and maintenance as allies to clinical success.

13.00-15.00 Break. Expoperio.

15.00-16.00 Debate. Use of antiseptics in the prevention and treatment of periodontal and peri-implant diseases.

16.00-17.00 Break. Expoperio.

17.00-18.30 Debate The impact of interproximal hygiene in clinical practice and expert consensus: Know it and take action.

Saturday,
29 November

Sepa

9.30-11.00 Perio Clínica A contemporary vision of multidisciplinary dentistry. Evolution of treatment concepts in periodontal regeneration.

11.00-11.30 Break. Expoperio.

11.30-12.00 Corporate Forum: Implants The present and future of minimally invasive dentistry.

12.00-13.30 Osteology Foundation - SEPA Soft-tissue defects around implants: Seeking new solutions for complex cases in the anterior region.

Sepa

9.30-11.00 Interdisciplinary and digital The day-to-day rehabilitation of the advanced periodontal patient (Stage IV): An interdisciplinary and digital perspective.

11.00-11.30 Break. Expoperio.

11.30-12.00 Corporate Forum: Implants Full-arch implant-supported prostheses: Protocols that make the difference.

12.00-13.30 Interdisciplinary and Digital The impact of digitalization on the rehabilitation of patients with Stage IV periodontitis.

Hygiene and prevention

9.30-11.00 Hygiene and prevention Prevention in interdisciplinary treatments.

11.00-11.30 Break. Expoperio.

11.30-12.00 Corporate Forum: Peri-implant Health How do I tell my patient to maintain proper implant hygiene and health?

12.00-13.00 Hygiene and prevention Diet as a central axis for promoting oral health.

Management

9.30-11.00 Management No management without people: How to use networks to align the team and build patient loyalty.

11.00-11.30 Break. Expoperio.

11.30-13.00 Management Excellence in management. Presentation of the Excellence in Dental Practice Management Award.

13.00 Presentation of the Excellence in Dental Practice Management Award

Sepa

9.30-11.00 Alliance for Health Symposium Medical periodontology: Beyond the mouth.

11.00-11.30 Break. Expoperio.

11.30-13.00 Sepa-AVOLA Association Symposium From oral pathogenesis to systemic salutogenesis: How can dentistry help shift the paradigm?

Room

Thursday, 27 November

113	Sepa25 Partners Program ● Dentists' content ● Hygienists' content			
114				
115	LUNCH ● ● LISTERINE 13.00-14.00 What is an antiseptic and how does it work? Are all antiseptics [...] Javier Sanz, Nagore Ambrosio, Beatriz de Tapia, Elena Figuera, Jorge Serrano, Regina Izquierdo, Bettina Alonso			
118+119				
120+121	TALK ● ● Ancladen 11.00- 12.00 The challenge of the second attempt: Regeneration is the beginning, but maintenance is the key to avoiding failure. Sergio Rodríguez	TALK ● ● Corus 15.30- 17.00 360° planning: The modern clinician's compass. Jesús Vilagrán	TALK ● ● Gemavip 17.30- 19.00 Dental ozone therapy: An innovative approach to the biological management of peri-implant tissues. One Shot technique. Giulio Papa	
122				
123		WORKSHOP ● ● eckermann 15.00-19.00 Chairside digital implantology: From scanning to surgical guide in real time. Iván García		
124		WORKSHOP ● ● Osteogenos 15.00-19.00 Introduction to the use of hyaluronic acid in dentistry: Intraoral and extraoral application techniques. Pablo Baltar		
125	WORKSHOP ● ● biohorizons comlog group 09.00-13.00 Success in immediacy: Decision-making sequence for achieving long-term esthetic and stable outcomes. Javier Calatrava	WORKSHOP ● ● ICX Implantos Ancladen 15.30-19.00 Bone regeneration without membranes: A paradigm shift. Allan Smelt, Alberto Fernández		
127				
128				
129		WORKSHOP ● ● Versah salugraft 15.00-20.00 Maximum 'Versatility' with osseodensification techniques. (Versah Burs) Emilio Rodríguez		
130	WORKSHOP ● ● EMS 12.00-14.00 GBT MACHINE: A new concept in preventive dentistry. Esther Rovira	WORKSHOP ● ● EMS 16.00-18.00 Keys to success in periodontal and peri-implant therapy. Xavi Costa Berenguer		
131+132	TALK ● ● Sanhigia 12.00-13.00 Diode laser: The best ally in periodontal and surgical practice. Vanessa Ruiz-Magaz	TALK ● ● NORMON 17.30 - 18.30 Use of hyaluronic acid in periodontics. Antonio Lorente Perez-Sierra		
133+134	TALK ● ● sweden & martina 12.00-13.00 Guided surgery in dental implantology: Precision, safety, and efficiency in oral rehabilitation. Santi Carreras	TALK ● ● Sanhigia 15.00-16.30 Application of digital tools in regenerative surgery. Fernando Cebrián, Francisco Carroquino		

Friday, 28 November

	LUNCH ● ● DENTAD 13.30-14.30 Peri-implantitis under control: Surgery and maintenance as allies of clinical success. Ramón Pons Calabuig, Maria Costanza Soldini			
		LUNCH ● ● Colgate 14.00 -15.00 Hypersensitivity: Technological innovation for effective solutions. Héctor J Rodríguez		
	TALK ● ● Lacer 11.30-12.30 Oral health during menopause. María Jesús Morales Vela	LUNCH ● ● KIN 14.00-15.00 Discover the benefits of hyaluronic acid following surgical and periodontal treatments through clinical case examples. Carlos Monteagudo, Fernando Luengo, Paulo Mesquita de Carvalho		
	TALK ● ● AVINENT 9.30-11.00 Subperiosteal implants: Customized solutions for complex cases. Javier Herce López	TALK ● ● Bexident by ISDIN 11.30-13.00 Early crises, critical decisions: Management of young patients with advanced-stage periodontitis. Jerian Gonzalez	LUNCH ● ● Parogencyl 14.00-15.00 Evolving careers: Lifelong learning and knowledge transfer in dentistry. Ana Echeverría, Anna Chércoles	TALK ● ● ticare 17.30-18.30 Clinical behavior of hybrid implants and the influence of their surface on oral biofilm formation. Eduardo Montero
		WORKSHOP ● ● HuFriedyGroup 15.00-19.00 The power of non-surgical periodontal therapy. Paul Levi		
	SUITE ● ● zshape 09.45- 11.30 Implantology Block. Carlos Parra y Pedro Pablo Rodríguez	SUITE ● ● zshape 12.00-13.30 Diagnostic Block. Nieves Albizu y Eva Martos	SUITE ● ● zshape 15.00-17.00 Diagnostic Workshop. Pedro Pablo Rodríguez, Peri Colino	SUITE ● ● zshape 17.00-18.00 Practice & Management Block. Luis Molina, Víctor Cambra
	WORKSHOP ● ● CURAPROX 09.00- 13.00 ITOP (Individually Trained Oral Prophylaxis). Isabel Martínez			
			TALK ● ● sweden & martina 15.00-19.00 360° Guided surgery: From analog to digital. Adriana Castro	
		WORKSHOP ● ● INTRALOCK 15.00-19.00 Management of autologous biomaterials in implantology and hard- and soft-tissue regeneration. Nelson Pinto		
	WORKSHOP ● ● Sanhigia 09.00- 13.00 Soft-tissue management in advanced regenerative surgery. Guillermo Escobar	WORKSHOP ● ● AlphaBio iberio 15.30-19.30 Guided bone regeneration: Step-by-step approach to horizontal augmentation. Javier Mayor		
	WORKSHOP ● ● acteon 09.00- 13.00 Opus presentation. Lorena Verdugo y Noemí Barjola	WORKSHOP ● ● salugraft 16.00-18.00 How to avoid periodontal surgery with Clean&Seal. Leticia Room		
		TALK ● ● Osteogenos 11.00-12.00 Analysis of periodontal bacteria in bone regeneration: From scientific evidence to clinical reality. César Muelas		
		LUNCH ● ● inibsa Geistlich 13.30 - 15.00 Optimizing bone regeneration around implants: Do you know REGENFAST®? Alfonso Gil	TALK ● ● inibsa Geistlich 16.00-17.30 Hyaluronic acid in periodontics - Pocket-X® Gel. Marina Siegenthaler	
	TALK ● Organizado por Donte Group 09.00-10.30 Subperiosteal meshes from a new perspective: Over 100 cases demonstrating high clinical versatility. José Montes Jiménez	TALK ● ● Sanhigia 15.00-16.30 Bone regeneration in atrophic edentulous jaws: New treatment and provisionalization protocols. Sergio García Moreno	TALK ● ● solventum 17.30-19.30 Dental anti-aging in patients with periodontitis: The art of direct composite veneers using Bioclear™ matrices. Vincenzo Giovane	

Joint Scientific Symposium
SSPI Sepa
26 / NOV — 2025

Room 120+121

Moderators

Dalia Mohammed Nourah

Maha Ahmed Bahammam

10.00 – 10.05 **Opening Ceremony.**

10.05 – 10.10 **Introduction by the Moderators.**

10.10 – 10.30
Why soft tissues matter.
Gonzalo Blasi

10.30 – 10.50
Timing is everything.
Khalid Saleh AlHamdan

10.50 – 11.10
Graft options: Soft vs. hard tissues.
Fernando Suárez

11.10 – 11.30 **Coffee Break.**

11.30 – 11.50
Strategies in the esthetic zone: Where details matter most.
Arwa Ali AlSayed

11.50 – 12.10
Esthetic alignment: Interdisciplinary perio-ortho strategies.
Patricia Solano

12.10 – 12.30
Shaping the emergence profile: Where prosthetics meet biology.
Ramón Gómez Meda

12.30 – 12.50
When things go wrong.
Sami Hussain Al Qahtani

12.50 – 13.00 **Roundtable Discussion and Closing.**

José Nart, Presidente de Sepa.

9.00-10.30

Game of Thrones
Scaffolds or membranes? Enhancing the technique.

ES/ENG

Use of resorbable membranes.
Autologous bone plates (Khoury Technique).

Moderator
Vanessa Ruiz-Magaz

Live surgery commentary
Istvan Urban
Luca de Stavola

10.30-11.30

Break. Exporerio.

11.30-13.00

Mucogingival
How do we currently manage peri-implant recessions?

ES/ENG

Coronally advanced flap in challenging situations.
Achieving coronal advancement using the tunnel technique.

Moderators
Patricia Solano
Ignacio Sanz Martín

Speakers
Giovanni Zucchelli
Paulo Mesquita

13.00-14.00

Corporate Forum: Peri-Implant Health

ES/ENG

What do we know and where are we headed in peri-implantitis prevention?
Findings from the SEPA-Ticare Delphi Study.

Speakers
Ana Molina
Alberto Monje

Cocktail to follow.

14.00-15.00

Break. Exporerio.

15.00-16.30

Regeneration
Complications in bone regeneration: Learning from our mistakes.

ES/ENG

Complications in guided bone regeneration using membranes.
Complications with nonresorbable membranes.
Complications in open and closed sinus lift procedures.

Moderator
Ana Molina

Speakers
Nadja Naenni
Isabella Rochietta
Lior Shapira

16.30-17.30

Break. Exporerio.

17.30-19.00

Regeneration
The power of periodontal regeneration.

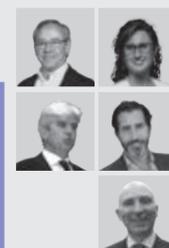

ES/ENG

What we've learned over the past three decades.
What remains to be discovered.
New horizons in periodontal regeneration.
Presentation of the SEPA Foundation Platinum Award to Sandro Cortellini.

Moderators
Mariano Sanz
Elena Figuera

Speakers
Sandro Cortellini
Filippo Graziani
Maurizio Tonetti

Faleh Ahmad Tamimi

13.00-14.00
Corporate Forum: Prevention and Hygiene

Lunch & Learn Format

ES/ENG
What is an antiseptic and how does it work? Are all antiseptics the same? Is every method of application equally effective?

LISTERINE
Why do we use antiseptics as adjuncts to periodontal therapy? In which patients or clinical situations are they indicated?
Debunking myths. Patient recommendations.

Moderator
Javier Sanz
Speakers
Nagore Ambrosio
Beatriz de Tapia
Elena Figuero
Jorge Serrano
Regina Izquierdo
Bettina Alonso

At the end of the session, a bag lunch will be offered to all participants.

14.00-15.00 Break. Expoperio.

15.00-16.30
Periodontal Health
Science in the service of oral health.

ES/ENG
Managing noncommunicable chronic diseases: What should periodontists learn?
#FuelYourWellbeing. Nutrition and health. Healthy diets.
#InCorporeSano. Physical exercise and health.

Moderators
Andrés Pascual
Agustín Casas
Speakers
Sari Arponen
Cristina Vera

16.30-17.30 Break. Expoperio.

17.30-18.00
Corporate Forum: Implants

ES/ENG
Updated decision-making in immediate loading in the anterior region.

Speaker
Ramón Gómez Meda

18.00-19.30
Oral Reconstruction Foundation
Immediacy in implantology: The latest advances.

ES/ENG
Scientific evidence and clinical indications.
Immediate loading of implants and restorations in single-tooth and tooth-supported fixed prostheses on narrow arches: Indications, limitations, and clinical protocols.
Immediate loading of implants and restorations in full-arch situations: Indications and clinical protocols.

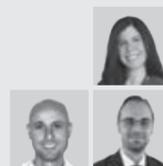

Speakers
Mariano Sanz
Juan Blanco
Diana Heimes

9.00-10.30
Peri-implant Health
Management of the compromised socket without a buccal wall in the esthetic zone.

ES/ENG
Video Format
Immediate implant placement with simultaneous reconstruction.
Alveolar reconstruction and delayed implant placement.

Moderator
Lucía Barallat
Speakers
Jan Cosyn
Gustavo Ávila

10.30-11.00
Corporate Forum: Regeneration

ES/ENG
Reconstruction of periodontal and peri-implant tissues in highly compromised situations.

Speaker
Ramón Lorenzo

11.00-11.30 Break. Expoperio.

11.30-13.00
Peri-implant Health
Pros and cons in the treatment of peri-implantitis.

ES/ENG
Pros and cons of nonsurgical treatment.
Pros and cons of surgical treatment.

Moderators

13.45-15.00	Break. Expoperio.		
15.00-16.30	ITI - Sepa Key Conclusions from the VII ITI Consensus (2023)	Moderator Antonio Liñares	 
	ES/ENG Clash of Titans: Managing dehiscences during implant placement: Hard-tissue grafts vs. soft-tissue grafts.	Speakers Ronald Jung Giovanni Zucchelli	 
16.30-17.00	Break. Expoperio.		
17.00-17.30	Corporate Forum: Peri-implant Health Prosthetic and surgical strategies for preventing peri-implant diseases: A multidisciplinary approach.	Speaker Beatriz de Tapia Pastor	
	ES/ENG eckermann		
17.30-19.00	Implants What to do with hopeless teeth in the esthetic zone of young patients.	Moderator Germán Barbieri	 
	ES/ENG Facial growth and implant infra-positioning. Tooth autotransplantation as an alternative to dental implants in young patients. Prosthetic alternatives to implants for anterior tooth rehabilitation in young patients.	Speakers Nicole Winitsky Ernest Lucas-Taulé Carmen Álvarez-Novoa	  

Sepa. ITI International Team for Implantology

Dentaid Research Center Room:
Imagining the future of oral health
 Friday, November 28, 2025

Room 113

Sepa25

9.30-11.00

What's new and what's best in tissue regeneration?

ES/ENG

Use of platelet concentrates in periodontal regeneration.
Use of autologous biomaterials for hard- and soft-tissue regeneration in relation to immediate and delayed implants: From evidence to clinical applications.

Moderator
Juan Blanco
 Speakers
Ana Castro
Nelson Pinto

11.00-11.30

Break. Expoperio.

11.30-13.00

Prevention of peri-implant diseases.

ES/ENG

The Clinical Practice Guideline for the prevention and treatment of peri-implant.

Primordial prevention: Are there specific strategies (before and during implant placement/restoration) to prevent peri-implant diseases?

Primary prevention: Once the implant has been placed and restored, should any measures be implemented to prevent peri-implant diseases?

Secondary prevention: Can peri-implant mucositis be effectively treated?

Moderator
Elena Figuero

Speakers
David Herrera
Mariano Sanz
Ausra Ramanauskaite
Filippo Graziani

13.00-13.30

Break. Expoperio.

13.30-14.30

Lunch & Learn. (Separate registration required; lunch included)

ES/ENG

Peri-implantitis under control: Surgery and maintenance as allies to clinical success.

Speakers
Ramón Pons Calabuig
Maria Costanza Soldini

15.00-16.00

Debate. Use of antiseptics in the prevention and treatment of periodontal and peri-implant diseases.

ES/ENG

Do we know the available products and their indications? Can antiseptics help us prevent periodontal and peri-implant diseases?

Use of antiseptics in the treatment of periodontal and peri-implant diseases: When and why to choose them.

- Is their use necessary for treating periodontal diseases?
- Is their use necessary for preventing periodontal diseases?
- Which patients benefit most?
- When and how should antiseptics be used?
- Which active ingredients are recommended?
- Are all antiseptics suitable for all clinical situations?

Moderator
Agustín Casas

Speakers

Program
MANAGEMENT
NOV 27 — 29, 2025

15.00-17.00

Innovation and sustainability in the dental practice.

Generational transition: Ensuring the future of independent clinics.

Innovation: Thinking differently as the key to success in dental practice.

First visits: Strategies to win over new patients.

New treatment lines with an integrated approach: Evidence, impact, and profitability in the clinical workflow.

Moderator
Carles Subirá

Speakers
Xavier Vela
Xavier Romea
Laura San Martín
Marcial Hernández
Fran Caro

17.00 - 17.30

Break. Expoperio.

17.30-18.30

Innovation and sustainability in the dental practice. (continued)

Sustainability in dental clinics: From individual commitment to collective action.

Keynote Lecture, Carlo Gallucci: Strategic management of the dental practice through the right balance of efficiency and values.

Moderator
Carles Subirá

Speakers
Ana Echeverría
Carlo Gallucci

9.00-10.30

Why measure and evaluate the management of a dental practice.

Moderator
Marcial Hernández

Speakers
Fran Caro
Laura San Martín
Pedro De Ahumada

10.30-11.30

Break. Expoperio.

11.30-13.00

How to measure key performance indicators in dental practice management.

Moderator
Fran Caro

Speakers
Erik Regidor
Úrsula Barroso
Rafael Areses

13.00-13.30

More Headaches? Taxation starting January 1, 2026.

Speaker
Xavier Llinchetas

13.30-15.00

Break. Expoperio.

15.00-16.30

Leadership and diversification skills in managing a dental clinic in a digital environment.

From prevention to management—and vice versa. Leadership for excellence lies in the details.

Scheduling and workflow organization: How to align efficient organization with clinical practice guidelines.

Moderator
Carles Subirá

Speakers
Sol Archanco
Borja Dehesa
David Palombo

16.30-17.00

Break. Expoperio.

17.00-18.20

The impact of artificial intelligence on improving productivity in dental clinics.

AI tools for attracting first visits.

AI tools to improve clinical processes.

How can artificial intelligence enhance productivity in a dental practice?

Moderator
Laura San Martín

Speakers
Marcial Hernández
Wenceslao Piedra

SPANISH SOCIETY OF PERIODONTOLOGY AND OSSEOINTEGRATION

Jordi Cambra

promosalud

An initiative of **Sepa.** | With the support of **DENTAID**
Oral health. Better life.

Promosalud is **SEPA's** oral and general health initiative, with the strategic support of **Dentaid**, to facilitate the early detection of the risk of suffering from **diabetes** or **high blood pressure** from the dental office.

These recommendations are endorsed by Scientific Societies in the fields of Cardiology, Diabetes, Hypertension, and Periodontics.

Centers that join this initiative **will be able to access the free online course for qualified personnel**, with the aim of training them on basic aspects of the protocol to be followed and on how to proceed in cases of patients with suspected presence of hypertension and diabetes.

More than 1,200 clinics in promosalud.
What are you waiting for?

SEPA PHARMA
Exclusive access for pharmacists and pharmacy teams
NOV 27, 2025

Sepa Pharma
Thursday, November 27, 2025

Room
113

Sepa25

09.30 - 10.15

Oral health rituals: Three essential steps.

Sergio Tizón

10.15 - 11.00

The future of dental care in your pharmacy.

Ana Carbó

11.00 - 12.15

Break. Expoperio.

11.30 - 12.15

Oral antiseptics: Standing out through quality recommendations.

Alba Sánchez Torres

12.15 - 13.00

Prosthetics and oral health: The pharmacist as an ally in patient hygiene, prevention, and well-being.

Víctor Gil

13.00 - 13.45

The oral microbiome: The invisible ecosystem of your mouth.

Álex Mira

13.45 - 15.00

Break. **Cocktail served in the same room.**

15.00 - 15.45

Oral health care from the pharmacy.

Sonia Miranda

15.45 - 16.30

Pharmacy and integrative dentistry: What is oral dysbiosis?

Irene Verdugo

16.30 - 17.00

Break. Expoperio.

17.00 - 17.45

Oral and general health: How oral health affects the body.

Francesca Dusio

17.45 - 18.15

The importance of pharmaceutical counseling in promoting oral health: How to address the most frequent questions in the pharmacy.

Leonor Martin-Pero
Cristina Navarro

This session requires separate registration from the main congress.
Free registration. Limited capacity.

Access is limited to pharmacists and pharmacy teams.

This registration grants access ONLY to SEPA PHARMA and not to other congress sessions. It includes access to the SEPA Barcelona expo area.

Thursday, November 27, 2025			
13.00–14.00 Room 115	What is an antiseptic and how does it work? Are all antiseptics the same? And is every form of application equally effective? Why do we use antiseptics as adjuncts to periodontal therapy? In which patients or clinical situations are they indicated? Dispelling myths. Recommendations for patients.	Moderator Javier Sanz Speakers Nagore Ambrosio Beatriz de Tapia Elena Figuero Jorge Serrano Regina Izquierdo Bettina Alonso	
Friday, November 28, 2025			
13.30–14.30 Room 113	Peri-implantitis under control: Surgery and maintenance as allies of clinical success.	Ramón Pons Calabuig Maria Costanza Soldini	
13.30–15.00 Room 131+132	Optimizing bone regeneration around implants: Do you know REGENFAST®?	Alfonso Gil	
14.00–15.00 Room 120+121	Evolving careers: Lifelong learning and knowledge transfer in dentistry.	Ana Echeverría Anna Chércoles	
14.00–15.00 Room 114	Hypersensitivity: Technological innovation for effective solutions.	Héctor J Rodríguez	
14.00–15.00 Room 118+119	Discover the benefits of hyaluronic acid following surgical and periodontal treatments through clinical case examples.	Carlos Monteagudo Fernando Luengo Paulo Mesquita de Carvalho	

Lunch & Learn sessions and talks require separate registration from the main congress. Limited capacity.
Lunch & Learn sessions include lunch for all participants
Register at sepa2025.es

9.30–9.45	Welcome.	Victor Cambra Luis Molina
9.45–11.30	Implantology Block A clinical and technological journey through the most advanced full-arch scanning solutions, 3D integration, and digital patient monitoring. Real cases, immediate tools, and connected workflows that are redefining excellence in implant rehabilitation.	
	Explore how full-arch implant-supported scanning with TRIOS and 3D integration are revolutionizing digital dentistry. Discover real, immediate solutions that save time, improve precision, and transform the patient experience. An essential session for professionals striving for excellence in implant rehabilitation.	Carlos Parra
	Full-Arch Scanning with IOConnect by TRUABUTMENT. Learn how IOConnect by TRUABUTMENT integrates with 3Shape TRIOS to enable precise, efficient full-arch scans. Pedro Pablo Rodríguez will present real clinical cases showing how this digital connection enhances predictability, reduces treatment time, and optimizes workflow in implantology.	Pedro Pablo Rodríguez
11.30-12.00	Coffee Break	
12.00–13.30	Diagnostic Block An in-depth look at tools that enhance clinical communication, patient monitoring, and decision-making. From Dr. Nieves Albizu's practical experience with TRIOS 6 and DX+, to Dr. Eva Martos's predictive, visual approach using DX (Patient Monitoring), this session demonstrates how digital dentistry can be simple, human, and transformative.	
	From her clinic in Bilbao, Dr. Nieves Albizu offers an authentic, personal perspective on how 3Shape's latest innovations are transforming daily practice. Through her experience with TRIOS 6 and the new communication tool DX+, she will show how technology can be intuitive, efficient, and clinically meaningful.	Nieves Albizu
	Dr. Eva Martos presents how DX (Patient Monitoring) by 3Shape is redefining clinical follow-up in dentistry. Using real cases, she will illustrate how this tool builds patient trust and enables precise visual evaluation of oral changes over time. A practical, engaging session to strengthen clinical communication and decision-making.	Eva Martos
13.30–15.00	Lunch Break	
15.00–17.00	Diagnostic Workshop	
	In this clinical and technical workshop, Pedro Pablo Rodríguez guides participants through the most advanced intraoral scanning techniques with TRIOS 6, addressing everything from edentulous patients to complex rehabilitations. The session will cover setup optimization, strategies for challenging clinical scenarios, and adaptation of digital workflows to each patient type. A hands-on, educational experience aimed at improving precision, efficiency, and confidence with 3Shape technology.	Pedro Pablo Rodríguez
	Dr. Peri Colino offers a practical perspective on modern clinical management: digital process integration, comprehensive scheduling and billing control, KPI analysis, and continuous improvement of the patient experience. A talk connecting technology and strategy to enhance clinic productivity and efficiency.	Peri Colino
17.00–18.00	Practice & Management Block	
	In this TechTalk, Luis Molina sits down with Dr. Víctor Cambra to discuss new trends transforming dental practice. They will explore how technology strengthens patient relationships and streamlines clinical management. A conversation balancing strategic vision with clinical insight. Innovation, digitalization, and excellence at the service of change.	Victor Cambra Luis Molina

This Suite requires separate registration from the main congress. Limited capacity.

Introduction

José Nart
Javier Gil

9.00-11.00

Session I. Prevention of Peri-implantitis.

**Do we really know how to prevent peri-implantitis?
Why can't we predictably treat peri-implantitis? Novel
insights into the immunological and pathogenetic
mechanisms.**
**Biomolecules as agents for peri-implantitis control.
Bone-regeneration biomaterials with antibacterial
properties.**
Oral presentations.
ID2823 – Emilio Jiménez Piqué (10:30-10:40 h)
ID3006 – Juan Pou (10:40-10:50 h)
ID2793 – Cristina Canal (10:50-11:00 h)

Moderator
Manuel Toledano

Break and posters

11.30-13.30

Session II. Treatment of peri-implantitis.

**Surgical strategies in peri-implantitis treatment.
Advanced bioengineering strategies for controlling and
treating polymicrobial infections on implants: Shaping the
future of biomedical devices.**
**Antibiotic use in peri-implantitis therapy.
Nonsurgical treatment of peri-implantitis.**
Oral presentations.
ID3022 – Darcio Fonseca/Javier Gil (13:00-13:10 h)
ID3024 – Esteban Padullés (13:10-13:20 h)
ID2784 – Jorge Toledano (13:20-13:30 h)
ID3025 – Marc Iglesias (13:30-13:40 h)

Moderator
Raquel Osorio
